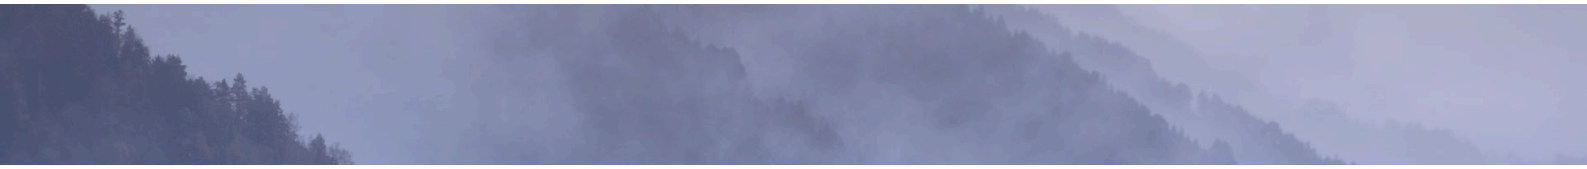
WORKSHOP SESSION

Session

WELCOME

You showed up. That matters.

Welcome to your Energy Clearing Workshop



Welcome to your Energy Clearing Workshop. Today you're going to learn how to identify and release trapped emotional energy that's been weighing you down. No experience needed - just an open mind and a willingness to feel lighter.

This workbook is yours. Write in it. Mark it up. Come back to it. There's no right or wrong way to move through this - your body knows what it needs, and today we're going to start listening.

I want to be honest with you: energy clearing isn't magic. It's not a one-and-done fix. But it is real. After 30 years as a Physical Therapist, I watched patients carry pain that had no physical explanation. The scans were clear. The tissue was fine. And yet - they hurt. That's trapped emotional energy at work, and that's what we're addressing today.

> *"Weight lifted like magic."*
>
> - MULTIPLE CLIENTS, AFTER THEIR FIRST CLEARING SESSION

By the end of this workshop you'll understand what trapped emotions are, how your body stores them, and you'll walk away with a simple self-clearing practice you can use at home. That's a real skill. Keep this workbook somewhere you'll find it.

WHAT YOU'LL NEED TODAY

- [ ] This workbook and something to write with
- [ ] A glass of water nearby (drink it - seriously)
- [ ] A quiet space where you won't be interrupted
- [ ] Permission to feel whatever comes up

A note before we begin: some emotions that surface today might surprise you. Be gentle with yourself. There's nothing wrong with you - your body has just been holding things it was never meant to hold forever.

SECTION 01

What is Energy Clearing?

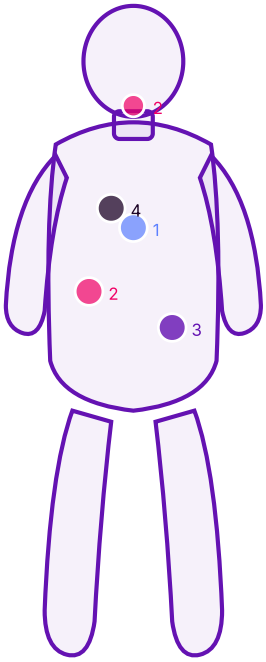
Understanding how emotional energy gets stored in the body

Every emotion you've ever felt creates an energetic imprint in your body. Most of the time, that energy moves through and releases naturally. But sometimes - during moments of overwhelm, trauma, or times when it wasn't safe to feel something fully - that emotional energy gets stuck. It becomes what we call a trapped emotion.

Trapped emotions aren't in your head. They have a real, physical location in your body. And over time they can interfere with your physical health, your emotional state, and the patterns that show up in your relationships and your life.

Energy clearing is the process of identifying exactly which emotions are trapped, where they're stored, and releasing them - gently, permanently.

WHERE EMOTIONS COMMONLY LODGE IN THE BODY



1 **Grief & Sorrow**	Chest, lungs, upper back - the physical weight you feel when your heart is heavy
2 **Anger & Bitterness**	Liver, jaw, neck - why your jaw clenches when you're frustrated
3 **Fear & Anxiety**	Kidneys, adrenals, lower back - your body's survival wiring
4 **Heartbreak**	The Heart Wall - layers of emotional protection that can block love and connection
Shame & Guilt	Stomach, solar plexus, throat - the energy of "not enough"

> Your subconscious mind holds the map. It knows exactly what's stored, where it lives, and when it got there. That's what we're accessing during a clearing session.

SECTION 02

How Trapped Emotions Affect You

A self-assessment - be honest, this is just for you

Trapped emotions don't announce themselves. They show up as symptoms - physical, emotional, relational. Take a moment and tick anything that resonates. Be honest. This is for you.

CHECK ANY THAT APPLY TO YOU

- [ ] Chronic pain with no clear physical cause - it's there, the scans are "normal"
- [ ] Anxiety or panic that seems to come from nowhere
- [ ] Persistent fatigue and exhaustion, even after rest
- [ ] Difficulty in relationships - patterns that keep repeating
- [ ] Feeling stuck, like you're spinning your wheels no matter what you do
- [ ] A heaviness you can't explain - not sadness exactly, just... heavy
- [ ] Recurring patterns showing up across different areas of life
- [ ] Physical tension that won't fully release no matter how much you stretch or massage
- [ ] Emotional reactions that feel out of proportion to what's actually happening
- [ ] Low self-worth or a persistent inner critic
- [ ] Difficulty feeling joy, ease, or safety in your own body
- [ ] Physical symptoms that have followed you for years with no resolution

WHAT DID YOU NOTICE?

Write down anything that stood out - or how many you ticked, and how that felt.

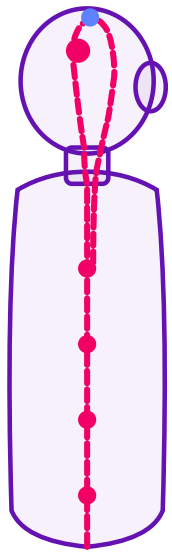
If you ticked even two or three of these, there's trapped emotional energy contributing. That's not a character flaw. That's just what happens when we're human and we feel things we don't always have the space to fully process.

SECTION 03

The Clearing Process

What happens during a session - step by step

Energy clearing follows a specific sequence. Each step matters. Here's what happens during a session - including the one we're doing together today.



Governing meridian - forehead to tailbone

1. **Connect with the subconscious mind**
   We establish communication using muscle testing - your body's built-in feedback system. Your subconscious responds with yes/no signals through muscle response.

2. **Identify the trapped emotion**
   Using the Emotion Code chart, we systematically narrow down exactly which emotion is trapped. Your body knows. We're just asking the right questions.

3. **Locate when and where it became trapped**
   The subconscious can tell us your age when this emotion got stuck, and sometimes the circumstances. This creates context - not so we re-live it, but so the release is complete.

4. **Release using magnetic energy**
   We use a magnet (or the hand's natural magnetic field) drawn along the governing meridian - from the forehead, over the crown, and down the spine. Three strokes typically releases the emotion.

5. **Confirm the release**
   We test again. Your body will confirm when the emotion is gone. Sometimes you'll feel it leave - a breath, a lightness, a shift in your chest. Sometimes it's quiet. Both are valid.

> You don't have to understand exactly how this works for it to work. I didn't believe in it either until I tried it. Your body knows what it's doing.

SECTION 04

The Emotion Code Chart

Your primary reference tool - keep this page handy

The Emotion Code chart organises 60 emotions into groups. During a clearing, we use this chart and muscle testing to identify exactly which emotion is trapped.

Official Emotion Code Chart - keep this page handy for reference

The Emotion Code® Chart

©2007-2016 Wellness Unmasked, Inc.	Column A	Column B
Row 1 Heart or Small Intestine	Abandonment Betrayal Forlorn Lost Love Unreceived	Effort Unreceived Heartache Insecurity Overjoy Vulnerability

WORKSHOP EXERCISE 01

Body Scan

Before we begin clearing, let's check in with your body

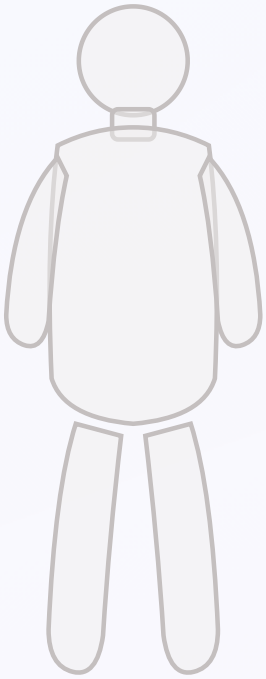
This exercise takes about 3 minutes. Read through the prompts slowly, and actually do it - don't just read and move on.

GUIDED EXERCISE

The Body Scan

Close your eyes. Take three slow breaths. Now scan from the top of your head down to your feet. Where do you feel heaviness, tension, tightness, or discomfort? Don't analyse it - just notice it. Open your eyes and note it below.

Mark where you feel something



WHAT DID YOU NOTICE?

Describe any areas of tension, heaviness, or discomfort. Be specific - "tight" or "achy" or "hollow" are all valid.

WHAT EMOTION, IF ANY, CAME UP?

First instinct. Even if it doesn't make sense.

HOW LONG HAVE YOU FELT THIS?

WORKSHOP EXERCISE 02

Identifying Your Trapped Emotions

Track what comes up during today's live clearing

Use this table to track what comes up during today's live clearing. Don't worry about filling every column in the moment - you can go back and fill in more detail after. The important thing is to write it down while it's fresh.

EMOTION	AGE WHEN TRAPPED	WHERE IN BODY	RELEASED? Y/N	NOTES

IN-SESSION OBSERVATIONS

Any physical sensations during the clearing? Any emotions that surprised you? Anything you want to remember?

There's no right amount to clear in one session. Your body will stop when it's done. Trust the process - even one emotion releasing is a real shift.

WORKSHOP EXERCISE 03

Self-Clearing Practice

A real tool for releasing emotional energy at home

You can do a simplified version of this work at home. This technique won't replace a full session, but it's a real tool for releasing emotional energy when something feels stuck. Use it whenever you feel heavy, anxious, or like you're carrying something you can't shake.

THE TECHNIQUE

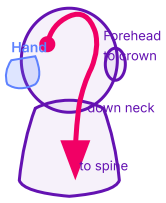
1. **Name what you're feeling**
   Don't filter it. "I feel heavy." "I feel angry." "I feel like I want to cry and I don't know why." Say it out loud if you can. Your subconscious mind needs to know you're working with it, not against it.

2. **Intend to release it**
   Say (out loud or internally): "I intend to release this feeling from my body, permanently and completely."

3. **Stroke the governing meridian**
   Using your fingers or the palm of your hand, stroke from your forehead, up and over the top of your head, and down the back of your neck. Do this three times in one continuous motion. You can use a magnet if you have one.

4. **Check in**
   Take a breath. Notice if anything has shifted - even slightly. Sometimes it's dramatic. Sometimes it's a very quiet "oh." Both are valid.

5. **Drink water**
   Always. Energy work requires hydration for your body to process the release. This is not optional - your body needs it.



3 strokes, forehead to tailbone

WHEN TO USE THIS

- [ ] Before a difficult conversation
- [ ] When anxiety spikes suddenly
- [ ] After a stressful event
- [ ] When you feel physically heavy
- [ ] Before sleep

PRACTICE NOTES

SECTION 05

After Your Clearing

What to expect in the 24-48 hours after a session

Your body just let go of something it's been holding for a long time. Give yourself grace. The next 24-48 hours matter. This isn't the time to push through and pretend nothing happened.

DRINK WATER

More than you think you need. Energy clearing stirs things up and your body needs hydration to flush it out. Aim for at least 2 litres today and tomorrow.

REST WITHOUT GUILT

If you feel tired, lie down. A nap after a clearing is common and normal - it means your body is processing. This is not weakness. This is healing.

JOURNAL WHAT CAME UP

Use the journal pages at the back of this workbook. Write while it's fresh. You don't have to make sense of it - just get it out of your head and onto paper.

BE GENTLE WITH YOURSELF

Skip the intense workout. Avoid alcohol today. Don't schedule anything stressful if you can help it. Your nervous system just did real work.

WHAT YOU MIGHT EXPERIENCE

Post-clearing experiences vary. All of the following are normal signs your body is processing a release.

- **Tiredness or emotional fatigue** - Your body worked hard. Rest is the right response.
- **Emotional waves** - Tears, laughter, or a sudden feeling of relief. Let it move through.
- **Vivid dreams** - Your subconscious mind continues to process during sleep. This is good.
- **Feeling lighter** - A real, physical lightness in the chest or body. This is what release feels like.
- **Temporary physical symptoms** - A headache or mild soreness can occur. It passes within a day or two.
- **Increased clarity** - Things you've been wrestling with may suddenly feel obvious or resolved.

"Give yourself at least 48 hours before you decide if it worked. The shift isn't always immediate - sometimes it's the day after when you realise you just... don't feel that thing anymore."

- MILA VELAZQUEZ, MSPT, CECP

SECTION 06

Journal Space

Write whatever needs to come out - there's no wrong answer here

> *"What did I release today?"*

> *"How does my body feel different right now?"*

> *"What surprised me about today?"*

JOURNAL - CONTINUED

Reflection, continued

Use this space however your body is asking you to use it

> *"What am I ready to let go of next?"*

> *"What does my life feel like when this weight is gone?"*

> *Free write - anything else on your mind*

SECTION 07

Your Next Steps

Today was a starting point - not a finish line

Energy clearing works in layers. One session opens something up. Continued work moves it deeper. Here's how to keep going.

BOOK A 1:1 SESSION

A private session is where the deep work happens. Mila will access your subconscious directly, identify what's ready to release, and clear it with you - personally.

Mila Velazquez

MSPT | CECP | 30+ Years Clinical Experience

I spent 30 years as a Physical Therapist watching patients carry pain that had no physical explanation. The imaging was clear. The tissue was fine. The mechanics were good. And yet - they hurt. Chronic, persistent, unexplained pain that conventional medicine kept trying to fix with the same tools that weren't working.

I started asking different questions. What if the pain wasn't structural? What if the body was holding something emotional that had nowhere else to go? That question led me to the Emotion Code - and everything clicked.

I've now combined three decades of clinical knowledge with Certified Emotion Code Practice. I understand the body from the inside out - both what science says and what science hasn't figured out yet. I take both seriously.

> *"I came to energy healing as a sceptic. A very educated, 30-years-of-clinical-experience sceptic. And then I tried it. The results were undeniable."*
>
> - MILA VELAZQUEZ, MSPT, CECP

My approach is direct, warm, and grounded in real anatomy and real emotional experience. I own the woo - but I also own 30 years of watching bodies heal, and I know what's possible when we stop ignoring half the picture.
