Workshop Timing Overview

PART	TOPIC	TIME
1	The Quantum Connection	15 min
2	The Sway Test	20 min
3	Pendulum Testing	20 min
4	Testing on Another Person	20 min
5	Surrogate Testing	20 min
6	Integration & Closing	15 min
Total Workshop Time		**~2 hours**

WORKSHOP FLOW NOTE

Each part follows the same pattern: **teach the concept → demonstrate live → guide them through practice**. Every part has a hands-on exercise.

PART 1

The Quantum Connection

15 Minutes

- How you connect **higher self to higher self** in the quantum field
- Information flows simultaneously to both practitioner and client
- Visible intuition - what it looks like when information flows through the body
- Your finger method: **index finger = yes/strong** , **pinky = no/weak**
- The difference between physical science and metaphysical science in practice

SAY THIS

"Energy has no space, time, or distance."

DEMO NOW

Show your finger method on camera. Hold up your hand - demonstrate the index finger response (strong/yes) and the pinky response (weak/no). Let them see how information moves through your body visibly.

→ *"Now I'm going to teach you the first method you can do right now, right where you are - the sway test. Stand up for me..."*

PART 2

The Sway Test

20 Minutes

Your body is a living pendulum.

DEMO NOW - STAND UP AND SHOW THEM

- Stand upright, feet hip-width apart
- Relax shoulders - loose but not sloppy
- Close eyes if comfortable
- State "Show me yes" - observe direction
- State "Show me no" - observe opposite

- **Forward = yes, backward = no** (for many, but NOT always - everyone is different)
- The key: **allow** the body to respond - do not force it

SAY THIS

"Allow the body to respond. Don't make it perform."

PRACTICE EXERCISE - GUIDE THEM THROUGH THIS

Have everyone stand. Walk them through:

- "Show me yes" / "Show me no" - find their direction
- Test: **"My body loves clean water"** (should get yes)
- Test: **"I am sitting in a chair"** (should get no, since they're standing)
- Test with objects: supplement, crystal, essential oil, food

→ *"Now let's add another tool to your kit - the pendulum. You can sit back down for this one..."*

PART 3

Pendulum Testing

20 Minutes

OPEN WITH

"The pendulum is NOT magic. It amplifies subtle energetic information. It is an extension of your intention, nervous system, subtle energetic communication, and intuitive guidance."

DEMO NOW - HOLD UP YOUR PENDULUM

- Hold chain between thumb and finger, let hang still
- Elbow supported, take a breath, centre yourself
- "Show me yes" - observe (clockwise / counterclockwise / forward-back / side-side)
- "Show me no"
- "Show me maybe / unclear"

IMPORTANT TEACHING POINT

Each person's pendulum language is **DIFFERENT**. There are no universal rules. They must calibrate their own pendulum first.

PRACTICE EXERCISE

Have them calibrate their pendulum, then test:

- "Is this supplement beneficial for me?"
- "Do I need more water?"
- "Do I have permission to continue?"

→ *"Now we're going to take this to the next level - testing on another person. This is where it gets really powerful..."*

PART 4

Testing on Another Person

20 Minutes

REQUIRES:

- **Permission** - always ask first
- **Clear explanation** - tell them what you're doing
- **Respect** - gentle handling
- **Neutrality** - no agenda, just listening

SAY THIS

"You are not there to dominate their body. You are there to listen to it."

DEMO NOW - BASIC ARM TEST METHOD

- Person holds arm straight out to the side
- They resist gently
- Apply LIGHT pressure only
- True statement = muscle stays stable
- False/stressful statement = muscle weakens/unlocks

CRITICAL POINT

NEVER aggressive. Too much force distorts results. Light pressure is all you need.

WHAT CAN BE TESTED:

- Emotional stress
- Energetic imbalances
- Supplements
- Healing priorities
- Readiness to release

"Now I'm going to teach you something that opens this work up to a whole new level - surrogate testing. This is how you test for someone who isn't in the room..."

PART 5

Surrogate Testing

20 Minutes

Testing through one person on behalf of another - person, animal, child.

USED WHEN:

- Not physically present
- Child too young
- Animal testing
- Someone too weak to test directly

TEACHING FOUNDATION

"Consciousness and energetic information are NOT limited by physical distance."

DEMO NOW - WALK THEM THROUGH THE STEPS

- Centre and ground yourself
- Ask permission: "Do I have permission to surrogate test for this person/animal?"
- Clearly identify who you're testing for
- Connect only with their field for the highest good
- Use your chosen method (sway, finger, pendulum)

CRITICAL BOUNDARY - EMPHASISE THIS

Surrogate testing is **NOT** for: spying, bypassing consent, satisfying curiosity, or checking up on people.

SAY THIS

"That is not spiritual wisdom. That is energetic boundary crossing."

Teach this with maturity and integrity.

"Let's bring it all together now - find what works for you, and close with a powerful affirmation..."

PART 6

Integration & Closing

15 Minutes

- Ask them: **Which method feels most natural to YOU?**
- Encourage building a **daily practice** - even 2 minutes a day
- When done with integrity, humility, and connection, muscle testing becomes more than a technique - it becomes a **language**

SAY THIS

"The body is always speaking. The question is, are we still enough to listen?"

CLOSING AFFIRMATION - LEAD THEM THROUGH THIS SLOWLY

"I trust my body."

"I trust truth."

"I trust clear guidance."

"I ask to receive only what serves the highest good."

"I honor what is revealed, and I honor what is not yet ready to be revealed."

AFTER CLOSING AFFIRMATION

Thank everyone for being here and for their trust. Open for **Q&A with Mila**. Mention the workbook they will receive, the replay, and MilasHealingTouch.com.
